

Belgado[®] *from the Verona[®] Collection*
BY RIDGEROCK[®]

The Verona Collection® featuring Belgado® from RidgeRock® represents the rich, elegant feel of antiquity.

With a rough-hewn face, it reflects the original European architecture like that of Tudor, Cotswold and Italianate.

Warm colors exposed in the layers of this beautiful material portray walls worn by weather and age.

Stairs and steps can easily be designed into Belgado®.

Create unique patterns in walls by using our optional Vertical Jumper.

This project uses only Left Headers and Right Headers.

The color palettes are deep, rich and regal with shades of burgundy, navy, ocher and cream, muted for a timeworn effect.

Belgado® was developed by RidgeRock® to provide a beautiful and upscale appearance without sacrificing the structural integrity of the retaining wall project.

Design Versatility - this project uses Belgado® Stretchers and Headers.

Belgado® *from the Verona® Collection* BY RIDGEROCK®

Belgado® features five unique pieces in four beautiful, carefully-crafted color variations and patterns.
